

Eating at the Table

My name is _____ and I am _____ years old. I go to preschool at _____

At school, we eat our meals and snacks while we sit at the table.

Sitting at the table makes it easier to eat safely and neatly.

When it is meal time, I will try and stay sitting at the table until my teacher says I can be all done and get up. Until they tell me I can get up, I can keep sitting at the table while I am eating.

My teachers like it when I stay at the table while I am eating my meal or my snack.
