Eating at the Table

My name is ________________ and I am ____ years old. I go to preschool at _________________________.

At school, we eat our meals and snacks while we sit at the table.

Sitting at the table makes it easier to eat safely and neatly.

When it is meal time, I will try and stay sitting at the table until my teacher says I can be all done and get up. Until they tell me I can get up, I can keep sitting at the table while I am eating.

My teachers like it when I stay at the table while I am eating my meal or my snack.
