

Toys in The Classroom

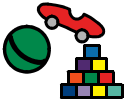

There are lots of toys in the classroom. Most of these

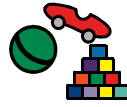

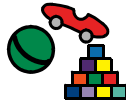

toys belong to the room. Usually students take turns playing

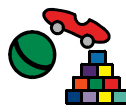

with these toys, taking turns means having a chance to play

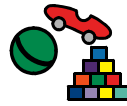

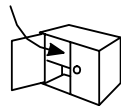

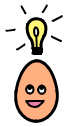

with the toys.

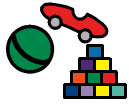

We play with the toys. These toys usually stay in the classroom.

The teacher will know if the toys can leave the classroom. It

is a good idea to keep the toys in the classroom.

Classroom toys are for all to play with.
